

Vehicle Identification Light

- Quickly identify heavy equipment and vehicles—visible day or night
- Features high-intensity LEDs for maximum visibility
- Durable construction withstands harsh conditions of mining, construction, industrial, utility, and oil & gas industries

Large vehicle identification lights provide fast and easy identification of any type of equipment in heavy duty working environments. The numbering panel is constructed from a high intensity reflective material that is easy to read whether the sign is powered or off. Designed to withstand high-pressure washing and impact, these durable lights are built with heavy-duty materials to withstand the harsh weather and working conditions frequently experienced in mining, construction, and other industrial applications. Rated to perform from -60° F to 140° F (-50° C to 60° C).

Increased Visibility

1/4 in thick yellow acrylic LED light diffuser spreads light evenly for increased visibility

Highly Reflective

High intensity reflective material for increased visibility when sign is not powered

Easy to Read

Easy to read block lettering during daylight hours with clear illumination at night

Easy Connection

Waterproof Deutsch plug for easy connection

Aluminum Frame

Durable frame with black powder coat finish is water tight and secured by multiple stainless steel bolts

Exceptionally Durable Lens

Polycarbonate lens has over 200 times the impact strength of glass with excellent light transmission

Highly visible when sign is not powered

Reflective material allows for visibility at night if sign is not powered

Front View - Rectangular Signs
