- Resistant to aircraft fuels, oils, and lubricants
- Eliminates Foreign Object Damage (FOD)
- Lightweight and easy to use
- Will not rot, crack or splinter like wood
- Rope-lock system
- Optional rope carrying handle
- Molded-in high-visibility yellow color
- Available with standard urethane base (AC4614-LR) and with a rubber base (AC4614-LR-RP)

Description

AC4600 aviation wheel chocks are designed for mid-sized to large aircraft and aviation equipment. They are manufactured with highly durable, lightweight polyurethane, which lasts longer than wooden chocks, never needs painting and eliminates Foreign Object Damage (FOD) threats for aircraft. The AC4600 series feature the Rope Lock System allowing a wheel chock to be temporarily and securely attached to the opposing wheel chock on the opposite side of the aircraft tire. They are ideal for business, commercial, cargo and military aircraft.

Note: Model number AC4614-LR-RP-H is sold as a single chock with a locking rope, an anti-skid rubber pad for polished hangar floors and a handle.

Specifications

Model No	AC4614-LR-RP-H
UPC	812958000205
Color	Yellow
Quantity Included	1
Length (Inches)	13.5
Width (Inches)	5.5
Height (Inches)	3.5
Lanyard Length	36
Sold As	Single

Prop 65
