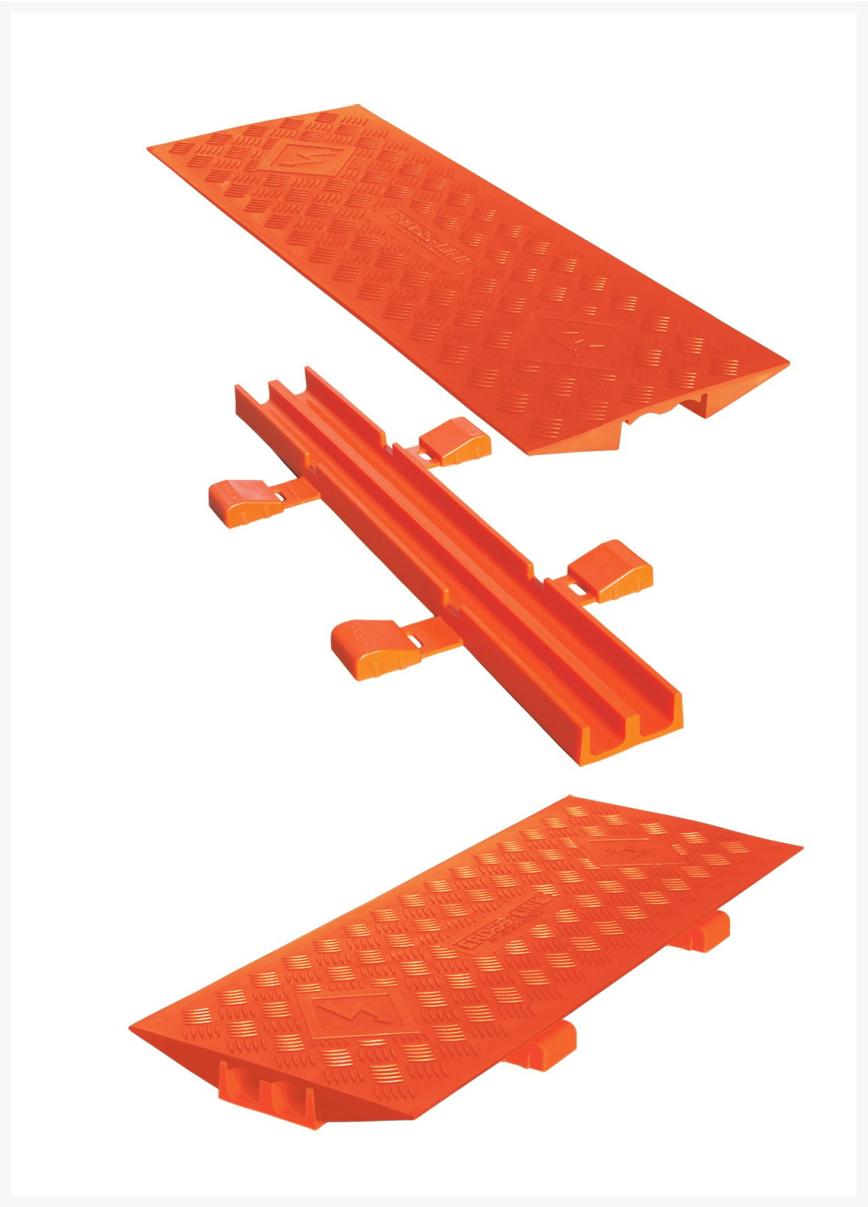
Product Images



Short Description

- Patented protector bridges
- The first expandable system to accommodate an unlimited number of channels
- Protects cables and hoses up to 1.5" outside diameter
- Custom cable protectors are available. Get a quote here.

Description

This patented, modular cable protector bridge does more than just add extra cable channels to your Guard Dog Cable Protectors. It does so while providing both vehicular and foot traffic with a level crossing surface, complete with a textured surface to help reduce the risk of slips, trips and falls. That isn't its only claim to fame, either.

It's the first expandable cable protection system to accommodate an unlimited number of channels. That means that no matter how extensive you need to make your cable or hose run, Guard Dog's got you covered. Intended for use with 5-Channel General Purpose Guard Dog Cable Protectors, these bridges are constructed of durable, all-weather polyurethane, and can protect cables and hoses with diameters of up to 1.5".

Custom cable protectors can be made with different colors and embossed logos. **Get a quote with your specific requirements**.

Specifications

Model No	CL2X150-5GD-O
UPC	812958000434
Brand	Checkers Safety™
Accessory Type	Cable Bridge
Color	Orange
Quantity Included	1
Load Capacity Per Axle	21000 lbs
Load Capacity Per Tire	10500
Length (Inches)	36
Width (Inches)	13
Height (Inches)	2
Max Cable Outside Diameter (Inches)	1.5
Number of Channels	2-Channels
Channel Width	1.5
