- Dog Bone® connectors
- Split or join cable runs
- All-weather polyurethane construction

- Patented 5-bar tread surface for maximum traction
- Custom cable protectors are available. [Get a quote here.](#)

## Description

---

To split or join cable runs, rely on the Guard Dog's 5-Channel 4-Way Cross Protector. Compatible with cable diameters of up to 1.325", it sports the same durable, all-weather polyurethane construction as other Guard Dog products, and the same high traction 5-bar tread surface. It's also compatible with Dog Bone Connectors for easy expansion.

More importantly, with a modular, interlocking design, it works seamlessly with other cable protectors, while also providing safe passage for both vehicle and pedestrian traffic. It's perfect for use in environments ranging from entertainment venues to sporting events to construction sites and commercial, industrial and utility facilities.

Custom cable protectors can be made with different colors and embossed logos. [Get a quote with your specific requirements.](#)

## Specifications

---

Model No	GDCR5X125-O/B
UPC	812958004234
Color	Orange Lid / Black Base
Quantity Included	1
Pallet Quantity	20
Load Capacity Per Axle	21000 lbs
Load Capacity Per Tire	10500
Length (Inches)	32.38
