

Vehicle Identification Light, 24" x 16", Rectangular - LUN24X16

Product Images

Short Description

- Perfect solution for identifying multiple vehicles
- Four sizes to choose from
- Easy to read, highly reflective block numbers
- Optimum visibility during the day or night
- Numbering can be viewed when vehicle is not powered
- Waterproof Deutsch plug for easy connection
- Aluminum frame with stainless steel bolts
- Durable construction withstands high pressure washing, impact, vibration, and large temperature shifts
- Minimizes replacement and maintenance costs

Description

Checkers™ large vehicle identification lights provide fast and easy identification of any type of equipment in heavy-duty working environments. Built with high output LED lights, these lights provide superior visibility during the day or night. The numbering panel is constructed from a high-intensity reflective material that is easy to read whether the sign is powered or off. Designed to withstand high-pressure washing and impact, these durable lights are built with heavy-duty materials to withstand the harsh weather and working conditions frequently experienced in mining, construction, and other industrial applications. They are rated at operating temperatures ranging from -60° F to 140° F (-50° C to 60° C).

Specifications

Model No	LUN24X16
UPC	812542021098
Quantity Included	1
Length (Inches)	17.75
Width (Inches)	25.75
Height (Inches)	5.75
Volts	24
Amps	2.5
Lumens	4095

Prop 65
