Description

Use the 5-Channel Heavy-Duty Yellow Jacket® AMS® System Male Interconnect with The Yellow Jacket® 5-channel AMS® (Advanced Modular System) Kit 1. The Yellow Jacket® 5-channel AMS® (Advanced Modular System) is a patented technology that utilizes separate cable protector sections and ramps to create a system that is fully expandable to hold an unlimited number of cables. By detaching the ramps, you can also quickly add cable runs and ADA compatible side ramps to existing systems. The Yellow Jacket® AMS® readily handles heavy truck and bus traffic while providing easy access for pedestrians, carts, and wheelchairs. Hinged lids make for easy loading of cables and hoses.

Custom cable protectors can be made with different colors and embossed logos. [Get a quote](#) with your

specific requirements.
