

8' Extreme Crossover Systems, Mining Cable Protector, 4.25" Dia. Cables, Type 4 with Closure Strip - XO442-CS-8

Product Images

Short Description

- Protects cables & hoses in mining and construction
- Made from durable urethane that withstands over a million pounds gross vehicle weight
- Impact and abrasion resistant to trucks and falling rock
- Eliminates cost of trenching or rerouting cables
- Protects cables and hoses up to 4.5" outside dia.
- Closure strips must be ordered separately

Description

Checkers™ EXTREME CROSSOVER PADS provide protection for electrical cables used in mining and construction. Durable urethane construction withstands thousands of pounds of weight and endures constant pounding, impact, and abrasion caused by haul trucks and falling rocks. Extensively tested and proven to be oil, chemical, abrasion, cut/tear, and temperature resistant. Types 3 and 4 feature molded-in through-holes for tow chain attachment (chain not included). Type 5 includes a heavy-duty chain handle on each side. Crossover sections can be fastened together for any length required. The use of crossover pads greatly improves safety and eliminates the cost and labor of burying, rerouting or stringing cables overhead.

Specifications

Model No	XO442-CS-8
UPC	812958005606
Quantity Included	1
Load Capacity Per Axle	500000 lbs
Load Capacity Per Tire	250000
Length (Inches)	96
Width (Inches)	4.5
Height (Inches)	5.375
Number of Channels	1-Channel
