- Modular interlocking design is lightweight and easy to transport, setup, disassemble, and store
- Quick solution to protect single runs of cable and hose lines
- Custom cable protectors are available. [Get a quote here.](#)

Description

Built from all-weather polyurethane, the Linebacker 1-Channel Split Top Cable Protector is a quick, effective

means of protecting single runs of cable or hose lines. With a lightweight, modular interlocking design and the capacity to extend to any length via patented T-Connectors, these protectors are suitable for both medium-duty, high load bearing operations and lighter, general-purpose use. This split top models load cables and hoses from the top, completely surrounding the cable or hose for protection.

Custom cable protectors can be made with different colors and embossed logos. [Get a quote with your specific requirements.](#)

Also available in a drop over top model for top-loading cables, these protectors are designed for cables up to 2.25 inches in outside diameter. More importantly, they're easy to transport, assemble, disassemble and store. Whether you need to quickly lay some cabling at a concert or protect a factory hose line, Linebacker is here to help.
