

Single Flat Link for Ground Protection Mats, Turn-A-Link, Galvanized - FTL-S-G

Product Images

Description

For use with AlturnaMAT®, VersaMAT®, TrakMat®, and LibertyMat/EuroMat®. Turn-A-Links lock mats together to form a semi-permanent, yet portable continuous roadway, walkway or working platform. Use single links to connect two mats end-to-end or side-to-side to create a roadway; double links can create a platform by connecting four mats together at the common corners. Links are steel with galvanized coating to protect from rust. Flat Turn-A-Links offer a lower profile to minimize tripping hazards on walkways, perfect for VersaMAT®
