

14" Galvanized Rebar Spike Hardware

Product Images

Description

Galvanized 14" steel spikes are designed for mounting parking curbs and speed bumps and humps into asphalt surfaces. To install, simply drill a hole into the asphalt and hammer the spike through the parking stop until it is snug against the surface. If the asphalt is older, you may want to coat the spikes with epoxy to prevent it from cracking. Not for use with concrete surfaces.

Specifications

Model No	GNRS914G00
Badge	Best Seller
UPC	662641881679
Quantity Included	1
Pallet Quantity	1000
Length (Inches)	14
