- Join left and right turns to create a jog
- Custom cable protectors are available. [Get a quote here.](#)

## Description

---

Cable protection systems won't always run straight – it may need to weave it around obstacles or unique configurations. And that's where the highly visible Guard Dog 5-Channel General Purpose Right Turn Cable Protector, model GDT5X125R-FLG/B, comes in. Designed for cables and hoses with a diameter of up to 1.325", it features Dog Bone connectors, a reinforced hi-viz fluorescent green hinged lid on a black base for easy cable placement and a patented 5-Bar tread surface for maximum traction.

In short, it offers everything a standard Guard Dog protector does. Its all-weather polyurethane construction makes it perfectly suited for just about any use case, from amusement parks and sporting events to heavy-duty industrial sites. You can also join this cable protector with the Left Turn Protector to create a jog.

The fluorescent green coloring was created specifically for situations requiring high visibility, using SafeRay™ Technology that provides the best day and night visibility. It features a UV reflective pigment that is added to the urethane blend during production to ensure visibility even in low-light or nighttime applications.

Custom cable protectors can be made with different colors and embossed logos. [Get a quote](#) with your specific requirements.

## Specifications

---

Model No	GDT5X125R-FLG/B
Color	Lime Green
Quantity Included	1
Pallet Quantity	100
Load Capacity Per Axle	21000 lbs
Load Capacity Per Tire	10500
